

MRS. DOANE
GETS \$200
AS DAMAGES

Withee and Parsons
to Pay That

JURY STRUGGLED ALL NIGHT

Woman Sued for \$5,000
for Alleged Malicious
Prosecution.

After an all night session the jury in the case of Mary E. Doane vs. W. W. Withee and A. P. Parsons came in this morning at 10:35 with a verdict awarding Mrs. Doane \$200 damages for false imprisonment and malicious prosecution.

Little sleeping was done in the jury room during the night. At one o'clock this morning the lights still burned brightly and the sound of voices coming from the room denoted that the twelve good men and true were still at work. Some of the jurors retired an hour or two later than this and slept three or four hours, while others only dozed away for an hour or two. Shortly after daylight this morning the jurors resumed deliberations. At 9:30 they marched into the court room and listened to evidence of Mr. Withee and Mrs. Doane and filed back to the jury room. An hour later a verdict was reached.

Mrs. Doane sued for \$5,000 damages following her arrest on the charge of attempting to defraud the Security Savings bank out of approximately \$15, the amount of an overdraft. A. P. Parsons was drawn into the case as a defendant through his efforts to collect the money and his suggestion to Mr. Withee to start a criminal action against Mrs. Doane. Woodward and Lees and Mr. Parsons were attorneys for the defense, while C. L. Hood represented the plaintiff.

NEW YORK, Sept. 20.—John A. McCall, president of the New York Life, testified this morning before the insurance investigating committee that his control of the company's money is absolute, and admitted making advances of \$100,000 and \$75,000 at another time, to Andrew Hamilton, in real estate transactions.

He could not explain why Hamilton's balance was only \$176, although the transactions were not made. He said he did not know what Hamilton did with the money. He admitted other advances but denied he ever spent a dollar to influence legislation.

McCall said he contributed to the three last campaign funds of the republicans because he left if "free silver" were victorious the company "might just as well close its doors." He said he thanked God he had contributed.

McCall said Hamilton's accounts never were audited. This has been so since the beginning of his connection with the company. He said Hamilton attended to the legislation of various states. The company had ten vouchers to show what he did with the money.

District Attorney Jerome was present and took a lively interest in the proceedings which may presage prosecutions later.

GIRL TOWS IN A
DROWNING MAN

DERBY, Conn., Sept. 20.—Miss Edna Merriam, seventeen years old, daughter of Mrs. Frederick W. Merriam, of Waterford, yesterday skillfully rescued a drowning man at Magonk Beach.

Edward Taplin, a lawyer of Cleveland, a visitor at the cottage of Erastus Smith, had gone out in a boat attired in a bathing suit and had taken several children with him. Before Mr. Taplin was aware of it the boat had drifted into deep water. He became frightened and excited, and fell overboard. Unable to swim, he floundered about and began to sink. The children in the boat were too terror-stricken to render any aid, but Mr. Taplin's cries for help were heard by Miss Merriam, who was about to go in bathing.

Miss Merriam is a good swimmer, and she swam swiftly out to the rescue. As she cautiously approached the struggling man she ordered him to float on his back. As the drowning man attempted to obey, Miss Merriam grasped him by his jersey and began to tow him toward the shore. Twice the plucky girl had to release her hold to save herself from being drawn down, but she finally got Taplin into shallow water, whence both were carried ashore in an exhausted condition.

ESCANABA, Mich., Sept. 20.—Following raids on Catholic cemeteries, at Oconto, Peshtigo and ten other Wisconsin towns in which thousands of dollars worth of monuments were wrecked, particularly the crosses, a gang of three men last night destroyed \$4,000 worth of monuments and crosses at St. Joseph's and St. Anne's Catholic cemeteries in this city.

Wooden crosses were all pulled up and piled in a corner. Every one in the grounds was disturbed. Following the reports from other towns, the authorities had set a watch, but last night through a misunderstanding the guards failed to appear.

There were mysterious marks and the inscription, "You'll sometime be called to defend us for religious liberty, study up."

DEAL HARSHLY WITH BURGLARS

Two Boys Get Long Terms for stealing
From Car at night.

For breaking into a Burlington freight car at night and stealing seven dollars' worth of shoes and belts Bernard Doss, aged 17, will spend from one to twenty years in the Green Bay reformatory and William Harden, aged 22, will be an inmate of the state prison at Waupun for three years.

The two youthful burglars were sentenced this morning by Judge Fruit, having pleaded guilty Monday afternoon. Harden, alias Frank Jones, is a hardened criminal, being a paroled prisoner from Joliet prison, and there is no doubt that he was the prime mover in the box-car burglary. This accounts for his stiff sentence.

The younger boy was evidently led into the crime by his companion. He looks the part of a green country boy and his actions indicate he did not realize the enormity of his offense at the time it was committed. The time of his detention in the reformatory will depend entirely upon his behavior there. He may be imprisoned only a year.

CITY FACES AN
ICE FAMINE

Strange Climatic Condition
Ends Supply in Midst
of Summer.

An ice famine is upon La Crosse. A shortage in the supply which is unprecedented in the history of the city confronts the dealers, and the harvest is still four months away. A peculiar rotting away of the ice in store during the summer months which is responsible for the shortage, cannot be accounted for by the dealers, and they are more dumfounded over the situation than are the customers.

Eugene Derr's men delivered the last of the ice in the storehouses of the People's Ice company this morning. A limited amount has been purchased from a local brewing firm, but this will last but a short time. The Heileman and Bigelow ice houses are nearly out, while the Grouch storehouse in the south end of the city is completely emptied.

In addition to the local shortage the Milwaukee and Northwestern railroads are sending here vainly endeavoring to purchase ice to supply creameries and other concerns along their routes. Big prices are being offered for ice but there is none to be had.

"By the first of November," said Mr. Derr this morning, "there will not be a cake of ice in La Crosse. I haven't the least idea what we will do. There does not appear to be any remedy. When the supply runs out customers will simply have to do without ice. No, the ice machines in the local breweries could not be enlisted in the business. They do not manufacture ice, but simply create a cold atmosphere in which to preserve beer."

"The rapidity with which the ice in our storehouses has wasted away this summer has dumfounded all the dealers. Mr. Bigelow says that in twenty years he has been in the business he never saw anything like it. All the local dealers put up more ice last winter than they did the year before, and while there has been a healthy increase in business this does not warrant the supply running out at this time."

"Some peculiarity of the climate is no doubt responsible for this wasting away. Reports from around the country indicate that the situation is general throughout Minnesota and Wisconsin. Everywhere supplies are running out, and traffic corporations are scouring the country for enough ice to run their business and supply regular customers."

AMERICA'S MEN OF MILLIONS TO BE CAINE'S HEROES IN NOVEL

LONDON, Sept. 20.—According to an interview given by the author yesterday before sailing for New York on the Umbria, the "great money kings" of America have found a champion in Hall Caine, who is going to write a novel all about them.

"During various visits to America," said Mr. Caine, "I've made a study of the social life of money kings. These men, for most part, are not the selfish, soulless plutocrats the general public

are led to believe.

"Their success is often due to the possession of great force of character, which in earlier days would have made them conquerors.

"Their lives, like Rockefeller's, are often led at the expense of much personal sacrifice."

Mr. Caine is going over mainly to see the American production of "The Prodigal Son" and also to see about publishing a book.

COAL MUST ADVANCE BEFORE TRADE WILL BE HEALTHY.

The Black Diamond, official newspaper of the coal industry, reviewing the western coal trade, says:

From almost any standpoint there has been an improvement in western coal trade conditions during the past week. Demand is much better than it was, while mine operators and

shipping companies are fairly busy with the orders which are coming to them. Prices are slightly firmer, but still constitute the weak spot in the situation, and until they advance, on western coals particularly, it can not be said that the market conditions are the best.

Car shortage, with its consequent restriction of production, may have an effect in stiffening the market as the season develops until a much better basis is reached. Western bituminous coals are still selling at figures anywhere from ten to thirty-five cents a ton below those which prevailed a year ago at this time.

As the cost of mining has not decreased any in the meantime and coal is as expensive to produce as it was then, it is very evident that the lower prices represent a sacrifice of the profits of the producing and shipping companies. It also must be evident that there should be a considerable advance over present figures before the trade is in a healthy condition.

FREIGHT OFFICES ROBBED AT SPARTA

Advices have been received here of the entrance into the freight house of the Milwaukee & St. Paul railway at Sparta and the removal therefrom of twenty-eight boys' knee pants suits. Miss Elise A. Lovold and Mr. Percy Cilley were quietly married at 8 o'clock last night at the home of the bride's parents, Mr. and Mrs. Andrew Lovold, 1018 South Ninth street. Rev. W. J. Turner officiated. Only relatives and a few intimate friends were present.

Following the ceremony the young couple left on a wedding trip for the north and upon their return will start housekeeping at 516 South Seventeenth street.

The groom is bookkeeper in the National bank and a violinist of considerable local prominence. The bride is a popular young lady and also a musician of ability, being a member of the King street Methodist church choir.

POSTAL CARDS A BOON TO BUSINESS

While it is probably true that postal cards are not used as much as in former years for writing personal messages, the records of the post-office department show that the sale of cards has increased during the last year. The reason for the increase is said to be that the cards are now utilized by numerous business houses which conduct "mail order" business. The report of postal cards used for the year of 1904-05 has not yet been published by the department, but an approximate estimate shows that 4,691,205 more cards were used than during the previous year, making an increase of about 18 per cent. The increase in revenue from these cards was \$49,359.

A great many of these cards are used by women in transacting household and social business. Many grocers and managers of department stores receive orders on postal cards and many statements are sent out on them.

A reason suggested by the officials

ALICE FISCHER IN "A SCHOOL FOR HUSBANDS"

of the department for the falling off in the use of the cards for private use or personal matters, is the practical use of the telephone in the last few years. Formerly, many engagements and "dates" were made on postal cards between persons that are now made by a short chat through the telephone.

The Brotherhood of Andrew and Philip of the First Baptist church was entertained at the home of Mrs. Emma Law of Fourth and Cass streets last evening.

"THERE'S A REASON."

That's All Right, But What Is It.

A lady teacher in South Dakota says:

"I was compelled to give up teaching for nearly 4 years because of what the physicians called 'nervous dyspepsia.' Nor was I of any use in the household economy. I was in many respects a wreck.

"I had numerous physicians, one after another, and took many different kinds of medicine, but they did me no goods.

"Finally, 5 years ago, I began to use Grape-Nuts food. I grew stronger in a very short time on the new diet, and was soon able to resume and am still teaching. I no longer use drugs of any kind, my dyspepsia has disappeared and I am a hearty woman—thanks to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. There's a reason. Brain work and worry take strength from the stomach and bowels. They become too weak to handle the fried meat, eggs, bacon, coffee and white bread, so, partly digested they decay and cause all sorts of trouble which will become chronic if continued. Then the nerves and brain grow weary for they are deprived of the rebuilding elements the food must furnish to replace the soft gray filling of nerve centres and brain which is partly used up each day.

Now comes the mission of Grape-Nuts to supply the "Reason." Made in a peculiar and scientific way of the selected parts of Wheat and Barley this famous food contains natural phosphate of potash with albumen which combines with water in the body and makes that gray matter quickly and surely. Then when nerves and brain feel the power of new made and properly made cells, the strength returns to stomach as well as other parts. "There's a reason." Anyone can prove it.

See the little book "The Road to Wellville" in each pkg.

Band Leader Compliments Prof. Dana

While Dana's Third Regimental band was playing at Milwaukee, they were highly praised by Liberatti, the director of the famous band of fifty-two pieces, who has been touring the country for some time and makes his headquarters at Philadelphia.

Dana's band prepared music, especially for the occasion, and both bands occupied opposite parts of the bandstand and played alternately.

After Dana's band had played several pieces Prof. Liberatti came over to Mr. Dana and shook hands with him, saying "it was the best band in the west."

"One must know one's own measure and keep it in view." Just to specify. YOU know how big your store is—you know its measure. Does anyone in the city think it a smaller store than it is? The chances are that if anyone does it is because you have been careless about keeping your store's measure "in view."

Go to the Bijou tonight.

PLAN BIG RACE OF LAUNCHES

A race to be open to all launches on the Mississippi river between St. Paul and La Crosse or lower down is being planned to be held next summer at Red Wing, this point being selected as being the most central for launch owners in this district. An event of this kind has never been pulled off before in this section of the river, it being the exception for other than local contests between launches to have taken place. There are a number of manufacturers of launches and engines on this section of the river and a competition of this kind will prove interesting in showing where the fastest boats are built.

Don't buy a stove until you have read the stove-ads. You might go to the right place—but it would be luck.

When you buy at a store that does not advertise you are giving your patronage to a store that has not asked for it—and, not caring enough for it to seek it, will, presumably, care no more about keeping it.

THE FUNNY OLD NIC.

The news that Czar Nicholas, of all the Russias, has called another peace conference at The Hague, announces one of the most amusing of that effete monarch's capers. It will be remembered that, prior to the Russo Japanese war, His Majesty did the world the honor to call a similar congress at the same place. Reasoning from analogy, it may be fair to presume that the call just issued is the foreword of another assault upon a supposedly defenceless nation.

"When the devil was sick,
The devil a saint would be;
When the devil was well,
Th' devil a saint was he."

The Japanese have made the devil pretty sick. For months, when peace was possible, and in the face of constantly extending disaster, the czar wanted to continue the senseless carnage for very shame of the drubbing he was getting. That it was, to begin with, a selfish war; that the aggressive plundering of Russia coupled with a hasty presumption that Japan was to Russia as Spain was to the United States, precipitated the bloodshed; that the civilized world held up its thumbs in intreaty for the ending of a struggle the prolongation of which could not alter results except in adding to the misery and death—these things seem not to have worried the Royal Conscience. If the war marked any particular characteristic in the monarch, it was stubborn pride, if he is the ruler; weakness, if there is a power behind the throne.

But, by all means, let there be a conference at The Hague, and let the benevolent Czar instruct the world in the philosophy of universal peace. Humanity, Christian charity and brotherly love should boil over in that congress, and it will no doubt result in the establishment of a world peace that will last.

Until Russia has rebuilt her navy.

GOOD RESOLUTIONS GALORE.

The Equitable says it will make no further contributions to republican campaign funds. It proposes to quit stealing, as it were. That is, in that particular way.

It is not known that other insurance companies that have likewise generously boosted the republican party with money held by them in trust for a non partisan organization a great percentage of whose members were of the opposite political faith, have sworn off. That depends, perhaps, on whether the republican Big Stick of Investigation is swung about their ears.

It is a fairly certain thing, however, that people who take insurance in the future will inquire carefully into the manner in which the business of a company has been conducted, before patronizing it.

And, by the way, what a d—d scalawag that blatherskite, Lawson, has shown himself to be! Shame that the irresponsible mouthings of a driving pessimist, wielding the pen of vengeance dripping from the inkwell of hate, should be permitted to expose the sacred secrets of fortune's pot hunters!

QUIPPS & CRANKS & WANTON WILES

The Jap, he whipped the mighty Czar,
Reduced him to a rum-dum;
And then the warlike despot cried
In terror, "Pax vobiscum!"

DRIFT.

The simple life seems to have secured a foothold in La Crosse.

Will not John Downs turn his attention to securing a North Side causeway? John will have the support of progressive people in pushing it through.

The falling off at the bath house is not strange, nor is it a reflection upon the popularity of the baths; it is simply due to the fact that baseball lovers found an attraction in another part of the city last summer, which was not there the previous season. The baths are worth while, and there is nothing discouraging in the loss of attendance.

FOXY GRANDPA

With rage a-trembling yestereve
I shot off my bazzu,
And now I am so sorry that
I don't know what to do.

No matter what I say to roast
The knocker down the street,

I nearly choke because I find
My mouth full of my feet.

I'm in the "Quips & Cranks" today,
Because I claim to be
The crankiest of all the cranks—
So have a laugh at me.
—FANNY FAN.

JUST LIFE

HUMANITY.

The other day Henry Kuhn and his aged wife started from St. Louis for Wheeling, W. Va., their pitiful all in the wagon. In Cincinnati the emaciated horse fell dead and a man and woman old enough to be your grandparents sobbed helplessly.

A crowd gathered. A crowd always gathers in a city.

In ten minutes that crowd had raised money enough to pay for another horse, and soon the old wagon was creaking its way to Wheeling and smiles chased away the tears on wrinkled faces.

Just a trivial incident!
But it makes your confidence in humanity stronger to hear about such doings.

Makes you glad to feel that there is quick sympathy and ready, practical help to be had for the need of it.

Takes away from the theory of chill individuality, puts us on the plane of brothers, "loving one another," gives the world something to admire and approve, to help drown the clamors of the chronically sad.

Any crowd would do this.

Let a crowd—just a street gathering—see a pathetic case, a case of real deserving, and it will give up its last cent to the last man, if need be.

The millionaire wouldn't—but the "crowd" will.

The minute "r" gets into the month, Roosevelt deserts Oyster Bay.

After seeing a photograph of John D. Rockefeller and the Press humorist, one is inclined to believe the oil magnate the youngest of the bunch. (Anent the wig.)

Hall Caine proposes to write a novel eulogizing the many kings of America. Why didn't someone think of this easy graft before?

Tom Lawson can now "point with pride" to the influence of his "insurance supplement" to Frenzied Finance.

Lets all start a life insurance company and get rich quick.

BRUTALITY.

The Milwaukee Journal tells the following pitiful tale:

Albert Heldmach is said to have refused his sick wife a drink of water.

It is said that when she painfully crawled from bed in an attempt to wait upon herself, after her husband had refused to assist her, she fell, half fainting from weakness to the floor.

"Won't you help me," she pleaded, looking up into her husband's face.

"No," he is said to have growled.

"Croak; I'd be glad to see you croak!" The woman was subsequently removed by her parents to their home.

The Heldmachs lived on First-av. Heldmach has been charged with abandonment.

Liner Drifted Helplessly at Sea.

Halifax, N. S., Sept. 20.—The North German Lloyd steamer Bremen, bound from New York for Bremen, arrived in Halifax harbor with a broken propeller shaft, in tow of the British tank steamer Lucigen. The Bremen has on board about 100 cabin passengers, besides many in the steerage, all of whom were reported as well.

A tug which went down the harbor and spoke the steamer returned with the news that Sept. 16, when the Bremen was two days out from New York, her shaft suddenly broke. She drifted about almost helplessly until the following day, when the Lucigen, bound from Shields for New York, responded to her signals for assistance. The Lucigen at once took the Bremen in tow and brought her to this port, a distance of 230 miles.

"If you can't boost, don't knock!"

Teaches Indifferent Husband to Love His Wife.

In a day distinctly modern in its dramatic demands there is a promise of delightful novelty in "The School for Husbands," which is said to be after the style of "School for Scandal." This, however, is only as it pertains to period, for the first named play has plenty of originality to commend it. It is from the pen of Stanislaus Stange, the author of a number of successful comic operas, and several serious heavy dramas.

"The School for Husbands" is frankly an eighteenth century story

of a middle-aged husband, who has gone the pace and has grown indifferent to a charming young wife. She finally tires of submission to his exactions, and after leading him a race with jealousy, reforms his ardor. The ingenious and injured wife inherits a large fortune at the psychological moment, saves her husband his squandered estate, and all entanglements straightened out with love abiding at the final fall of the curtain. One complication dovetails with another in this construction. Pathos and humor are happily blended, and a number of well drawn characters sustain the interest of the situation and baffle the brightness of the lines.

"The School for Husbands" will be the attraction at the La Crosse theatre Thursday, Sept. 21. Prices, 25c to \$1.50.

"Half won is match well made" is one of the things Shakespeare wrote when in a store-keeping mood. Modernized, it might read: "If your advertisement is convincing, the sale is virtually made."

The Wisconsin Farmers Organize

Chicago, Sept. 20.—Wisconsin and Minnesota farmers have formed unions, and these will be affiliated with Chicago labor unions through the American Federation of Labor if local labor leaders can bring about the proposed alliance for offensive and defensive purposes. Joseph W. Morton, former president of the International Brotherhood of Stationary Firemen, has returned from a diplomatic trip among the farmers' unions of the northwest. He says there is certain to be an alliance formed between city wage workers and farm hands and farm owners who work their own land.

"They are talking strike up there in Wisconsin," said Morton. "The farmers will beat us on the striking proposition, if they do what they plan. They want to form a national labor union and hold back their products, when prices do not suit them. Rallies are being held and the leaders are in favor of affiliating with the American Federation of Labor, and there will be no opposition from city wage workers."

HOLLAND UP AGAINST A DEFICIT.

The Hague, Sept. 20.—The states general was opened yesterday. Queen Wilhelmina's speech after expressing her pleasure over the ending of the Far Eastern war, dealt with internal matters. She said the financial condition of the country necessitated an economical administration as the revenues, although increasing, were not keeping pace with the expenditures. An extension of the sources of revenue was necessary to meet the expected deficit of 1906 and the expenditures necessary for education and social reforms.

Regarding the defense of the country the speech proposed the universal preliminary training of the youth of the nation to make the whole people available for defense. Means will be sought to complete the fortifications of Amsterdam as quickly as possible.

Delaware Republicans are Trying to Get Together

Wilmington, Del., Sept. 20.—Ten Republican editors of Delaware met here to consider the situation. The result was a unanimous agreement to support the following propositions: Immediate election of a United States Senator; common primary for the re-establishment of one Republican organization in city, county and state, and an early conference of the two Republican organizations to bring about this result; elimination of personal abuse and suppression of factional recrimination; combination of the Republican press against the common enemy.

Two Republican journals which have supported the Addicks, or Union, faction, were not represented.

"I SPEND ALL MY EARNINGS FOR DOCTORS AND MEDICINE."

Here is a remarkable letter from a catarrh sufferer who was cured by Cooper's New Discovery after everything else failed.

The Cooper Medicine Co., Gentlemen:—For twelve years I have been a sufferer from catarrh. It first started in the nasal cavities and air passages, which became inflamed and sore. My breath became very offensive and a nasty mucus dropped into the throat and stomach; the bronchial tubes became affected and my entire system was filled with the catarrhal poison.

I spent all my earnings with doctors and for medicine without results, until I gave up all hope and despaired of ever being cured.

I was told of Cooper's remarkable cures of catarrh, but did not believe he could help me.

My family insisted that I should at least try these new discoveries in medicine. I did so reluctantly.

I noticed an improvement the first week and now after three weeks' treatment I am a healthy happy man. God bless Mr. Cooper and his remedies. Signed, J. Sautelle, 519 Grand Ave., Milwaukee, Wis.

CATARRH IS A DANGEROUS DISEASE.

It poisons the entire system and oft-times ends in consumption and death. Cooper's New Discovery never fails to expel the poison and drive every trace of catarrh from the system.

Every Catarrh Sufferer Should Try This Remarkable Medicine.

Cooper's New Discovery costs \$1.00 per bottle, three for \$2.50, six for \$5.00. Cooper's Quick Relief, the assistant remedy costs 50c per bottle. Beware of canvassers and street fakery, claiming to sell the Cooper Remedies. Buy only from our special agent whose name appears below, or from legitimate dealers in medicines. Where we have no special agent, you can secure the remedies, charges prepaid, by sending the price of the medicine you wish direct to the Cooper Medicine Company, Dayton, Ohio.

ARRANGE FOR W. C. T. U. CONVENTION

The north side members of the W. C. T. U. met yesterday afternoon at the home of Mrs. John Grimes of 823 Rose street. They are making arrangements for a large convention which is to be held in La Crosse during the first week in October and north side members who are assisting in the completion of the arrangements reported as to the progress which they had made with their work.

The delegates selected to represent the union at the convention are as follows:
First delegate, Miss Sophia Hinds; second delegate, Mrs. J. Blanchard; alternate to the first delegate, Mrs. B. S. Perry; and alternate to the second delegate, Mrs. John Grimes.

One hundred and fifty delegates will be in attendance at the sessions of the convention which will be held in the Congregational church. The north side union will entertain and take care of fifty of these delegates during their stay in the city.

Those in charge of the various committees are as follows:
Mrs. Jackman—Souvenirs.

Mrs. B. S. Perry—Badges and printing.

Mrs. S. B. Blanchard—Reception.

Mrs. O. C. Bangsberger—Decorations.

The three unions will meet a week from today in the Congregational church to hear the final report of the committee and complete the arrangements for the convention.

Thought The Wagon Was Stolen.

When W. C. Riek, the Loomis street grocer, went out to his barn this morning he was somewhat surprised to find that his wagon had disappeared in some mysterious manner, and he supposed that it had been stolen.

One of his friends who had borrowed the wagon without the knowledge of Mr. Riek because he did not wish to wake him, returned it. Mr. Riek had already notified the police.

Burlington Notes

Nine stock trains passed over the Burlington road through Grand Crossing today.

Business at present is rushing and more train crews are being put into the "pool."

They have not enough of the regular engines on hand to supply the demand and passenger engines have been used lately.

It was reported that a wreck had

taken place on the Burlington yesterday but some one who started the rumor had mistaken the wreck of the Milwaukee train at Newport.

Made One Today

Miss Pearl Champagne and William Asselin were united in marriage this morning at the St. James church by the Rev. Ambrose Murphy.

A large number of relatives and friends were present to witness the ceremony after which they left for the home which had been furnished for them in West La Crosse.

A reception was tendered them during the day and they were showered with congratulations, receiving many handsome presents.

WEDDING RECEPTION

A large number of relatives and friends attended the reception tendered Mr. and Mrs. Carl Bauch last evening at the home of the bride at 303 Caledonia street.

Refreshments were served and good music was in attendance.

They will make their home on Summer street.

NINE PIN LEAGUE REORGANIZES AND ELECTS

The old members of the nine pin league of the north side met last evening and held an election of officers as follows:

President—John Seaman.

Vice President—Alois Yehle.

Treasurer—William Kathary.

Secretary—John Huss.

They bowl on the alleys at upper George street, and will hold their first meeting of the season next Tuesday.

NORTH SIDE BRIEFS

Agnes Finn and mother, Mrs. Ellen Finn, of Chicago, who have been visiting for the past few weeks at the home of the latter's daughter, Mrs. L. L. Murphy, of Gould street, and other relatives and friends, left this morning for Butte, Mont., where they will visit relatives. They will stop off at Minneapolis and St. Paul enroute. The latter's sister, Mrs. J. H. INDUCTION MOTORS

are so constructed as to be able to stand overloads of 100 per cent without injury. The design and principles governing the construction of induction motors are particularly favorable to maintaining good efficiencies at low loads, which insure a high all day efficiency. Induction motors are now employed in practically every industry and their superiority has been abundantly demonstrated.

TAKEN BACK TO
REFORMATORY

State Agent Rawson of the industrial school for boys arrived in the city yesterday and this morning started back to Waukesha with Joseph Hedsco, aged sixteen, who escaped from that institution last December and had since managed to keep out of the clutches of officers until Officer Dugan picked him up.

The boy had only been in the city a couple of days when Officer Dugan, noticing his suspicious actions and catching his begging, took him to the station. There he put on a bold front and told Desk Sergeant Webber that he lived at a certain number on South Ninth street.

"Why look at that boy's face," said Webber to Dugan. "He's the worst liar we ever had here. Why that's the boy who escaped from the reformatory school, aren't you?"

Completely taken off his guard the boy tremblingly admitted he was and told all about it. The school authorities were notified and Mr. Rawson came to La Crosse on the next train.

SULTAN YIELDS A
POINT IN OUR
DISPUTE

Constantinople, Sept. 20.—Turkey has taken the first step towards yielding to the demands of the United States legation by admitting the right of the United States consular authorities to see the Armenians, Vartanian and Afarian, and investigate their claims to be entitled to United States protection. Consul General Dickinson has visited the prisoners and has opened an inquiry. Vartanian is charged with the murder of a prominent Armenian merchant, Apik Undjian, in Constantinople Aug. 26. The crime was political.

Afarian is accused of participation in the plot to assassinate the sultan July 21, when a bomb was exploded at the conclusion of the Selamlik ceremony, just as the sultan was leaving the mosque. About forty persons were killed by the explosion. Both Vartanian and Afarian had been sentenced to death, but owing to the intervention of the United States legation their sentences have been quashed and new trials have been ordered.

ILLEGAL LAKE
FISHING.

Toronto, Ont., Sept. 20.—The Ontario fisheries department will institute a rigid investigation into alleged illegal fishing by firms from the United States in Georgian bay and Lake Erie. It is alleged that thousands of tons of fish illegally taken are shipped to the United States every week.

The chances taken by fishermen on Lake Erie of clashing with the government cruiser Vigilant are not the only means taken by firms in the United States to get fish from Canadian waters, according to a government official. It is alleged that they secure the services of licensed Canadian fishermen and supply them with nets and tugs. The Canadian fishermen then turn their catches over to boats belonging to the United States companies.

COLE'S HOT BLAST
Wonderful Heater and Fuel Saver

Cost of Stove Saved in Fuel

As you know over one-half of the available heat in hard coal and soft coal is lost with the ordinary stove. The extent of unburned gases in hard coal is shown by opening the magazine cover of a base burner when the extra oxygen supplied fills the entire stove with flaming gas. The entire gas supply for both fuel and illumination in many cities and towns is made from ordinary soft coal. Other stoves allow this gas half of the fuel to pass up the chimney unburned thus wasting it as a heat producer, because they are not gas tight and do not furnish superheated oxygen above the fuel where the gas is wasting.

The Original Cole's Hot Blast Stove

by means of the Patented Hot Blast Draft used in connection with other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon in the coal, thus making \$5.00 worth of hard coal, soft coal or lignite or a \$2.00 ton of slack or coal siftings do the work of twice the amount of fuel in other stoves.

For Soft Coal or Hard Coal

Cole's Hot Blast is Air-Tight and guaranteed to remain so. Imitations open at the seams and leak at the joints, making them fuel eaters rather than fuel savers. Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time.

With Your Old Stove the fire is always out the coldest morning and your plants are often frozen. Even when it does keep fire over night the house is cold in the morning and you go to breakfast shivering with cold. Besides the unsatisfactory result it gives it is eating up the price of a new stove every winter.

You can enjoy the luxury of getting up in warm rooms every morning and only kindle one fire a year by purchasing a Cole's Original Hot Blast. The Cost of the Stove is Saved in the Fuel. Read carefully the guarantee which is one that cannot be made on any other stove manufactured in the world.

NOTE—Cole's Hot Blast has many imitations. But they all lack these special features because our stoves are fully patented and protected. The name, "Cole's Hot Blast from Chicago" will be found on the feed door of each stove. Be sure that you get the "Original Hot Blast."

FRED DITTMAN, 129 S. Fourth Street.

The best dealer in every town generally handles Coles Hot Blast. Write the makers, COLE MANUFACTURING CO., 3218 South Western Avenue, Chicago, for their valuable booklet on the scientific combustion of fuel and telling all about COLE'S HOT BLAST. Mail order purchasers protected by guarantee.

Guarantee

- 1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size.
- 2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner with the same heating surface.
- 3—We guarantee that the rooms can be heated from one to three hours each morning, with the soft coal or hard coal put in the stove the evening before.
- 4—We guarantee that the stove will hold fire with soft coal thirty-six hours, without attention.
- 5—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.
- 6—We guarantee every stove to remain absolutely air tight as long as used.
- 7—We guarantee the feed door to be smoke proof and dust proof.

The above guarantee is made with the understanding that the stove be operated according to directions, and set up with a good flue.

FORMER MAYOR OF
FOND DU LAC
DEAD.

FOND DU LAC, Wis., Sept. 20.—Former Mayor Frank B. Hoskins died suddenly yesterday from appendicitis. Mr. Hoskins had been prominent in the commercial circles of the city for many years. He was president of the Eastern Wisconsin Railway and Light company, which operates the local street railway system and the interurban line between this city and Oshkosh. He was secretary of the Harrison Postal Bag Rack company, secretary of the Fond du Lac Canning company and a director of the Commercial National bank. Mr. Hoskins was born in New

York state, Aug. 25, 1850, and came to this city with his parents the same year.

He was elected register of deeds in 1878 and served a number of years in the common council and board of education. In 1898 has was elected mayor and he was re-elected the next year.

Mr. Hoskins was prominent in fraternal circles, being a thirty-second degree Mason and a former grand chancellor for Wisconsin for the Knights of Pythias. His death was due to appendicitis.

The city will be in general mourning until after the funeral, which will be held Thursday, at 1:30 o'clock at the residence.

Just as it costs no more for a long trip on an up-to-date trolley car now than it used to for a short one on a horse car, so the modern store, which spends money for advertising, can sell goods more cheaply than the old-fashioned store which "saves the expense of advertising."
